Client Agreement

We are delighted to have the opportunity to work with you as your appointed advisor.

To help us to develop a strong relationship with you, we would like to explain our core values, the way we work and what you should expect from us.

About Us

Durham Capital Investments is a leading provider of financial services throughout North America, Europe and the Asia-Pacific region. We specialise in providing each of our clients with a highly individualized service, and we believe that every investor should be treated with equal respect, regardless of their investment capabilities.

We provide an impeccable service which is geared towards building long-term relationships with our clients, based on honesty, transparency and trust, allowing us to fully understand the financial obligations and objectives of our valued clients. We are client-led and not product-driven, and we believe that the most successful relationships rely on an interactive process which starts from us listening to you in order for us to work out how best we can serve you.

We talk to you, we take the time to understand your personal goals and financial objectives, and only then do we advise you on the most appropriate investment strategies.

Our Values

We take pride in delivering excellence for our clients, both in terms of the advice they receive and the level of service they can expect to experience. As a result of this we have achieved the "gold standard" for the financial services sector. As a leading financial firm, we commit to adhering to a series of obligations to ensure that the financial advice we deliver is consistent and suitable for our clients' circumstances. In the event that this doesn't happen, however, it is important that you tell us. We believe in giving our clients independent advice, with honesty and integrity.

CLIENT AGREEMENT

Our Obligations to You

Before providing advice we'll assess your needs, consider your financial objectives and assess your attitude to any risks that may be involved. If you don't want to discuss a particular area of financial planning and that area should not form part of the advice given, we can exclude it, if you instruct us to do so. This might of course have a bearing on the advice that might have been given.

Before making any recommendations, we will carry out a suitability assessment so that we are able to act in your best interests.

Where we agree to provide you with a service that includes an ongoing review of the suitability of the investments we have recommended, we will carry out this review at least annually. To do this we will need to make contact with you to assess whether the information we hold about you remains accurate and up to date. We will issue you with a report setting out the results of our assessment and, if relevant, any updated recommendations.

Please be aware that investments can fall, as well as rise, and that you may not get back the full amount invested. The price of investments we may recommend may depend on fluctuations in the financial markets, or other economic factors, which are outside our control. Past performance is not necessarily a guide to future performance.

We may occasionally recommend investments that are not readily realisable. We will only do this where appropriate but, if we do, we will draw your attention to the risks associated with the investments in our suitability report. There is a restricted market for such investments and in some circumstances it may not be possible to deal in the investment or obtain reliable information about its value.
